

MORSERINO NOTES (N3GE) 11/18/2021

VBand OPERATION

<https://hamradio.solutions/vband/>

On Morserino: CW Keyer <RET>

On Computer: Within your browser (i.e. GOOGLE CHROME), go to <https://hamradio.solutions/vband/> & setup:

CALLSIGN/NAME: Callsign Name State (i.e. N3GE Roger PA)

MODE: I use "Straight Key/Bug/Cootie" for my Begali paddles

NOTHING CHECKED

@ PRACTICE CHANNEL: Check OFF the small speaker (top right)

Connections: As shown below

This will allow you to key into VBand with your paddles/key via the Morserino & listen to your CW via the headphones. Thus, you avoid the latency that is common without the Morserino.
