

MORSERINO NOTES (N3GE) 06/02/2021

DECODER

<https://www.youtube.com/watch?v=rz5pMUPpXtl>

On Morserino: CW Decoder <RET>

On Radio: Plug into speaker output: Amazon Basics 3.5 mm Male to Male Stereo Audio Cable, 2 Feet, 0.6 Meters

Plug same into GREEN RECEIPTACLE OF: (A) MillISO Headset Adapter, 3.3 Feet 3.5mm Mic and Audio Headphone Splitter (TRRS Male to 2 TRS Female) CTIA 4 Pole Stereo Jack Y Cable

Plug (B) same into “music tone” jack of Morserino.

**SET MORSERINO TO PARAMETER = NARROW
TONE PITCH = 698**

**AJUST RADIO VOLUME FOR
BEST RESULTS**

Works well depending on the speed & “fist” of sender.

Decoder: It might be useful to mention that adjusting the audio input level (Appendix 2 in the manual) might improve the quality of decoding, as it provides for a minimum of audio distortions in the M32’s op amp.
